

Building Partnership

2nd CALL FOR PAPERS

SMART COMMUNITIES

CHALLENGES AND DEVELOPMENT PATHS OF CENTRAL AND EASTERN
EUROPEAN LOCATIONS IN THE GLOBALISED WORLD

5th CENTRAL EUROPEAN PHD WORKSHOP
ON REGIONAL ECONOMICS AND BUSINESS STUDIES

28th-29th September 2017, Legénd, Hungary

Organized by
Szent István University, Faculty of Economics and Social Sciences, the Foundation for Human
Resources Development, Gödöllő
co-organized by the
University of Szeged, Institute of Economics and Economic Development and
the Hungarian Regional Science Association.

The workshop is financed by the project titled as Smart Communities, No. SKHU/1601/4.1/210.

Building Partnership

The workshop is open for PhD students and early career researchers from the Central-Eastern European region, working within the fields of regional studies, rural development, economics and business administration. It offers specific training and provides an opportunity for interaction amongst senior and young researchers.

Important deadlines:

Submission of the full paper 1 September 2017
(template and guidelines can be downloaded from the conference website
<http://gtk.sziu.hu/en/faculty/conferences-events/smart-communities-conference>)

Payment of reviewing, registration cost for self-financing participants
as well as the extra accommodation cost (27, 30 September nights): 1 September 2017

- **Participation at the workshop (including accommodation and catering) is free of charge but registration is accepted only with presentation and paper submission.**
- **One registration per paper is accepted. Co-authors may attend the event on their own costs (200 EUR) that needs to be transferred before 1 September. In this regard please contact the organizers.**
- **Bank details: Szent István Egyetem, Magyar Államkincstár, H-1139 Budapest, Váci u.71., 10032000-00282826-00000000, please indicate 33P129905 and the name of the registered participant in the memo section.**

Travel costs and reviewing cost (30 EUR/paper) should be covered by the participants. The reviewing cost covers the fee of the double-blind review. All submitted and accepted papers will undergo a double-blind review process before publication in the conference CD proceeding with ISBN. All the approved papers will be published on the CD. According to the evaluation of the session chairs after the workshop, some of the works presented at the event will be selected for publication in peer-reviewed journals to be published in 2018. Maximum two papers per participant could be submitted and the maximum number of authors per paper is four.

Participants will be asked to present their paper in 10 minutes at the workshop that will be followed by specific questions from the dedicated discussant and the participants in preferably 5 minutes. Papers will be reviewed by junior and senior discussants as each paper will be assigned to a senior discussant (session chair) and a junior discussant (one of the participating PhD students) to effectively give and receive feedbacks.

Building Partnership

The working languages of the workshop are English and Hungarian.

Papers are welcome particularly (but not exclusively) from the following themes:

- smart cities, smart communities
- resiliency at different territorial levels
- urban – rural dichotomy
- development path designation, lock-in, new economic geography
- the geography and challenges of peripheries
- territorial competitiveness and place-based development policies
- new methods and approaches in local economic development
- contribution of local actors, community development
- enterprises and locations in the globalised economy
- cross-border initiatives and their potential
- tourism development and alternative practices
- migration and local human resources
