E-NEWSLETTER
April 2018

Dear Readers,

Please welcome the latest issue of the E-newsletter of the Faculty of Economics and Social Sciences of the Szent István University. By publishing this newsletter, we wish to share the most important events and activities of the Faculty in each month and inform you about the coming events. On behalf of the editors, we hope that you will enjoy it. Please feel free to share news and photos with us about the events by sending them to the International Office.

Celebrating the Earth's Day in a kindergarten

On 24 April students from the Faculty of Economics and Social Sciences of SZIU visited the local kindergarten on the occasion of the Earth's Day. Approximately 100 lovely and playful kids were looking forward to meeting the foreign students. Colourful and very creative presentations were given about the countries of our students, about their animals, their environment and about other national traditions. Students from Ghana, Vietnam, Ecuador, Syria, Pakistan and Tunisia were playing, singing and dancing together with all the lovely and curious kids.

Kids learnt a lot from our international students: they learnt to sing a Ghanaian song about hawks and chicks, they got to know how the Vietnamese children in the kindergarten celebrate the Earth Day, why reusable paper is better and more environment-friendly than plastic and also

they could see the traditional clothes of Tunisia and Pakistan.

26 April: The 3rd International Young Researcher Scientific Conference on "Sustainable Regional Development - Challenges of Space & Society in the 21st Century" was organized at SZIU.

Meanwhile the graduating students finally handed in their diploma work. We wish good luck for them for their final exams.

Furthermore the entrance exam of the new candidates applying for Szent István University has started this month. There is a short skype interview with the international students who are nominated. We are looking forward to welcoming them at our university☺
