Celebrating the Earth's Day in a kindergarten

On 23 April 2019 students from the Faculty of Economics and Social Sciences of SZIU visited Kikelet Óvoda /Egyetem téri Óvoda/ kindergarten on the occasion of the Earth's Day. A lovely group of playful kids were looking forward to meeting our foreign students. Colourful and very creative mini-presentations were given about the countries of our students, about their animals, their environment and about other national traditions. Students from Kenya, Ecuador, Kyrgyzstan, Egypt, Ethiopia, Bhutan and Morocco were playing, singing and dancing together with all the smart and curious kids.

Interactive English lesson at Corvin Mátyás Grammar School in Budapest

On 30 April 2019 we visited Corvin Mátyás Grammar School in the 16th district with 9 international students. They were from Ethiopia, Egypt, India, Ghana, Kenya, Bhutan, Pakistan and from Kyrgyzstan.

The aim of this brand-new project of the Faculty of Economics and Social Sciences is on the one hand to offer primary and secondary school students the opportunity to meet our foreign students, to talk to them and to get to know each other's culture better, while on the other hand our main concern is to help children be more sensitive and open towards other cultures and traditions. During class our university students presented their countries, sat among the grammar school students, talked about their culture and simply had conversations with the students. It was fun 😊
