

E-NEWSLETTER

September 2018

Dear Readers,

Please welcome the latest issue of the E-newsletter of the Faculty of Economics and Social Sciences of the Szent István University. By publishing this newsletter, we wish to share the most important events and activities of the Faculty in each month and inform you about the coming events. On behalf of the editors, we hope that you will enjoy it. Please feel free to share news and photos with us about the events by sending them to the International Office.

Welcome to Gödöllő in the new academic year of 2018/2019. We hope you had memorable summer holiday and you are ready for the studies. On 4th September 2018 the official opening ceremony took place for the 1st year students. In order to help the new students to get settled and integrated, we organized an orientation week with full of useful and interesting programs and team-building activities.

Researchers' Night

Global Village & Day of Languages – The program was held on 28th September under the organisation of the Faculty of Economics and Social Sciences.

More than 40 foreign students could introduce their countries to our visitors. The 40 students who presented their countries were from the following 14 countries: Indonesia, Bhutan, Kosovo, Syria, Sudan, Egypt, Morocco, Ghana, Kenya, Pakistan, India, Kyrgyzstan, Kazakhstan and Mongolia.

There was a stand devoted to Hungary, where we could display Hungarian foods, drinks, pieces of traditional folk art and the very popular Rubik-cube. Our visitors could dance and sing together with students coming from Africa, Asia and the Middle-East.

Certificate of Achievement

Certificate of Achievement was given to Rajab Abdul Salam Ghabour for the memorable lecture at XXI. RISK FACTOR of FOOD CHAIN International Conference, which was

organized in Mátrafüred, on 26-28 September 2018. The researcher received the award of "Scientific Publishing of Academic Performance" in this conference for his research entitled "OPTIMAL DESIGN OF SOLAR-ASSISTED INDUSTRIAL PROCESSES CONSIDERING SOLAR ENERGY HYBRIDIZED WITH PASTEURIZER". The participants were from Hungary, Slovakia, Poland, Czech Republic, Italy, Romania and one Syrian with about 65 researchers. Congratulations!
